# MysteryTwister C3

# Nils away on travel

Authors: Nils Griese, Nathalie Hänig

July 2013

Nils would like to go on a journey and has already gathered some information about his destination on Wikipedia. He visited you today and gave you a note with his research. Unfortunately it is encrypted.
Can you find out where he would like to go?

```

Authors: Nils Griese, Nathalie Hänig

Since you cannot decrypt the text without a hint, you call Nils and he gives you a riddle:
„Who travels around the Earth and does not pay anything for it?

Use the solution of the riddle as the key for the encrypted note. Enter Nils' destination in capital letters as the solution of the challenge.

# Hint

Use transposition!
