Mystery Twister C3

THE CRYPTO CHALLENGE CONTEST

Molehunt (Part 3/3)

Classical Substitution and Transposition

Dr. Wacker
University of Duisburg-Essen

Instructions

- Ciphertext-only Challenge

- Decrypt the message

- Take note of the codeword

- Submit the codeword in UPPER-CASE

- You have at most 15 attempts to submit the codeword

Prolog

You are a secret agent currently employed with the country of "Disturbed Souls" (DS). Currently you are on an abroad mission. Starting with a few days ago, something strange is going on: some messages sent from your headquarters, the base command 4 (BC4), cannot be decrypted with the access key (Zugangsschlüssel) known to you. You suspect that something important is going on and that the security level has been raised beyond your security clearance. This gives you an uneasy feeling and therefore you decide to dig into this matter ..
